The Rotating Seater

Relax and enjoy those long balmy evenings with the contemporary rotating pod, a new concept to the garden.

Perfect for entertaining family or friends or for simply reading the Sunday paper over a coffee..

Providing a comfortable seating area for seven people this pod rotates 360° and can be positioned into the sun or away from the wind and rain making it the perfect hide away regardless of the weather. With the help of large UV protected windows you can enjoy a panoramic view of your garden.

It also comes complete with solar lighting.

The Rotating Lounger

Make the most of your garden while lounging around in luxury of this Pod...

Designed to increase the sense of luxury living this versatile Pod transforms from a seating area into a luxurious lounging area or bed by simply lowering the table and inserting the extra cushions provided.

When the table is in the upright position the Pod seats up to 7 people. It also rotates 360* so that you can enjoy the sun or shelter from the wind or rain.

Entertaining or reading can be prolonged into the evening with the aid of solar lighting.

The Wheel Bench

Simplicity at its best – a little comfort tucked away in a quiet stop in your garden...

This unique shaped bench offers you plenty of shade and shelter. It is ideally designed to be placed against a wall, fence or as a stand-alone picnic bench.

The wheel bench is ideal for outdoor spaces no matter how big or small.

An option of side detachable cover sheets are available. By placing two or more wheel bench's in line and adding a roof between each unit, we can create a multitude of different sized seating areas.
